

## TREEMER / SEPTEMBRE MINI-LP

In Helsinki, Finland, there grows a musical species called Treemer. Rooted in life-long friendship of its' members, and a passion for independent pop-music making, Treemer has now sprouted a new branch in the form of a mini-LP.

**Septembre** is a collection of 6 songs. Sticking to one particular genre has never been a priority for us Treemers. Instead, we support the organic come-whatever-may -kind of cultivation. This time, the songs vary genre-wise from art school poprock (**Stuck**), dreampop (**Ordinary**), shoegaze (**Septembre bloom**), garage (**Eyewitness**), post-punk (**Paper cuts**) to power pop (**Feelings**).

The mini-LP was recorded during few lovely summer days of 2021 in the farm house studio **Lammaskallion Audio**, and enriched & nourished by us Treemers over the year that followed.

We hope you'll enjoy the outcome with all its' flavors and shades!

Yours,

Mia, Marko, Joakim, Tommi and Sam

**Septembre** will be published on all major streaming platforms on September the 30<sup>th</sup> 2022.
